

SA SHAMIM JUTE MILLS LTD

JUTE MILL PROFILE & EXPORT DOSSIER

Direct Manufacturer & Global Exporter
Dinajpur, Bangladesh

Integrated Jute Manufacturing, Built for Export

SA Shamim Jute Mills Ltd is a direct manufacturer and exporter of jute packaging and industrial jute products, established in 2019 in Dinajpur, Rangpur Division, Bangladesh.

Our integrated campus covers 534.5 decimals and carries the full production chain on site, from fibre softening and spinning to weaving and hydraulic baling. The product range is engineered for packaging buyers in the food commodity trade: cocoa, coffee and grain.

352 Units Heavy
Industrial Machines

730+ MT Monthly
Export Capacity

810+ Skilled
Factory Workforce

MANAGING DIRECTOR'S STATEMENT

Our buyers do not purchase a bag. They purchase certainty that the shipment will arrive intact, clean and compliant. We built this mill around that principle: controlled production, tested materials and transparent documentation. Every buyer is welcome to audit our campus, nominate an inspection agency and verify what this dossier states.

Shamim Akhter Hossain

Founder & Managing Director

SA Shamim Jute Mills Ltd

352 Machines. One Integrated Production Chain.

1 Softening > 2 Carding > 3 Drawing > 4 Spinning > 5 Weaving > 6 Baling

Fleet includes softeners, cards, drawing frames, flyer spinning frames, rapier looms, cop-change looms and hydraulic balers.

Four Product Lines. One Controlled Mill.

Every product is manufactured on our integrated campus in Dinajpur and supplied to export grade. Specifications below are standard ranges; custom sizes and constructions are produced to buyer specification.

Technical Specifications

Parameter	Food-Grade Jute Bags	Heavy Sacking Bags	Jute Yarn & Twine	Hessian Cloth
Construction	VOT treated, food-grade	A-Twill, B-Twill, Binola, D.W. Flour Sack	1-ply to 4-ply, Spooled / Precision Wound (CB, CRM, CRT)	Hessian (burlap)
Size or count	Custom to buyer order	Custom to buyer order	8 lbs/spindle to 28 lbs/spindle (Custom counts)	20 in to 60 in width
Weight	Per buyer specification	Per buyer specification	Per spool / package order	7 oz to 14 oz
Compliance	MOSH/MOAH tested, BfR 2009	Export grade	100% Export Grade, Tensile & Lea Strength Tested	Export grade

ERC: Registered Exporter

BJMA: Member

Third-Party Pre-Shipment Inspection

- SGS
- Intertek
- FIS
- On buyer nomination

Inspection scope and acceptance criteria are agreed with the buyer in the purchase contract.

Agencies: SGS, Intertek, Federal Inspection Services (FIS).

From Dinajpur to Your Port.

Our mill ships by sea through Chattogram and by road through four land customs ports. Container loading, Incoterms and payment terms are set out below so buyers can plan freight and finance before placing an order.

Shipping Route

Item	Detail
Dispatch point	Dinajpur, Rangpur Division, Bangladesh
Primary ocean port	Chattogram Sea Port (UN/LOCODE: BDCGP)
Land customs ports	Benapole, Sona Masjid, Bhomra, Banglabandha

Container Loading (FCL)

Item	Approx. payload	Packing
20 ft Dry FCL	~21 MT	Bales of 300 to 500 bags
40 ft HC	26 to 27 MT	Bales of 300 to 500 bags

Payload is approximate and depends on bale density and bag weight.

Supported Incoterms 2020

Any mode of transport: **EXW, FCA, CPT, CIP, DAP, DPU, DDP**

Sea and inland waterway only: **FOB, CFR, CIF**

Commercial Payment Terms

Term	Description
100% Irrevocable L/C at Sight	Letter of credit payable at sight
Advance T/T	Telegraphic transfer before shipment
CAD / DP	Payment against documents
D/A	Documents against acceptance

Delivery and payment terms are confirmed per order in the sales contract.

Inside the Mill: From Fibre to Yarn

Buyers are welcome to inspect our campus in person or through a nominated inspection agency.

Inside the Mill: Weaving, Finishing & Baling

High-density twill weaving, Herakles seam stitching, and high-pressure hydraulic baling.
